A MESSAGE FROM THE PRINCIPAL

Mr. Leigh Hovey

And so another year comes to an end. Another year of astonishing personal achievements for so many of our students and one of excellent academic success.

Our graduating Year 11 class, our 'Class of 2019' is a rich tapestry of vibrant characters who have contributed so much to our school, many of whom have been here since KG and have become very much part of Cambridge English School.

I always say that a school is not simply a building but it is those within that make it what it is and our current Year 11 students are no exception. Every one of them has, in their time with us, developed into a charming young man or woman. Individuals who have such wonderful unique personalities, who have worked so hard to make the very best of the opportunities in front of them. Students who have ensured that this phase of their education is something they can reflect on with pride and fond memories. Great friendships have been forged and clear paths for each future have been set out in front of them. These students are ambitious, driven and determined to succeed, many of them have clear goals in life and with their positive and committed outlook will no doubt be shining stars of the future as they have been here at Cambridge.

To each future doctor, engineer, mathematician, musician, physicist, sportsperson, actor, pilot, author, scientist I say this:

Never settle for 'just enough' continue to strive for excellence, do one thing every day that challenges you, always aim to be proud of yourselves, reach for the stars and you will one day look back on a life full of accomplishment and fulfillment.

Finally I say thank you, your contribution to our school is immeasurable. Not only have you pushed yourselves for excellence throughout the academic side of school life, but so many of the wonderful events and initiatives that have taken place this and previous years have been conceived, planned and implemented by you, right down to this wonderful yearbook.

So good luck for your future. Whatever you do, do it well, do it with pride and enjoy all the success and happiness that life will most certainly bring you.

A MESSAGE FROM THE HEAD TEACHER

Mr. Parvaz Sharif

As we approach the end of the 2018-19 academic year, I would like to reflect on some of the achievements of our graduating class at Cambridge English School-Hawally.

The talent of some of these students first came to my attention whilst they were in Year 9. Teachers had mentioned their outstanding academic prowess, and their hunger for learning. Last summer they helped contribute to the best results our school has ever achieved, such as 100% pass rate in English 1st language, 95% pass rate in ICT, 90% pass rate in Chemistry and 84 % pass rate in Mathematics with 19 students achieving A*s. We hope that they will do equally well in their remaining subjects this year. The university fairs are a popular event at CES and we continue to attract some of the best universities from around the globe via our connections with the British Council, the US and Canadian embassies. These fairs inform our students of many aspects regarding universities, including visa applications, entry requirements and university life.

Each year our teachers select students from Year 11 as Prefects and we assign them specific tasks such as Primary helpers, Library helpers and Dawn Readers. Opportunities like these enable our students to develop their confidence and lead in areas they are comfortable in.

Other events that these students have been involved in include the design of their senior jackets, the graduation video, this year book, and the Black and White dinner, an evening enjoyed by all. Our students particularly enjoyed getting involved in our first ever International Day in which their chosen country was India. Well done to the organisers for their hard work and dedication.

On the sporting front, I am pleased that more students signed up for our football, basketball, volleyball and badminton competitions, taking part in local tournaments hosted by other schools and universities.

The success of all these students would not be possible without the continued support of you the parents, and we the staff at CES would like to extend our thanks to you all; you should be proud. A special thanks to Ms. Asma for her continuous support and guidance in organising many of these events such as this SEN19R year book, and the B&W dinner. Finally, I would like to thank the management, teachers and administrators at CES for helping make this school the safe learning environment that these students thrive in.

I would like to end this message by wishing the graduating class of 2019 the very best for the future and I can sincerely say that we will miss them. They have been a wonderful SEN19R year group, and will be missed greatly.

Good luck and God Bless.

Parvaz Sharif

A MESSAGE FROM HEAD OF YEAR

Ms. Asma Arif
Head of year 11 and 12

It's been an honour and privilege to watch you all grow from wide-eyed lemmings to fine adults. I cannot believe the time's gone so quickly. Well, you know what they say-time flies when you're having fun. Who could forget the events of the year?

You were a fantastic Year 9 Year Group to start my time with as a Head of Year at Cambridge English School Hawally. I would like to thank you for being such fantastic pupils and giving your all in the past 3 three years, with me.

There have been some good times, some bad times and sometimes we all wanted to give up. However, you held it together, supported each other and came through the other side shining like stars in a night sky. We teachers cannot take all the credit for the success that you have had and will continue to have; you have proven yourselves as grown up beyond your years and a thoroughly hard working group of people. You will always be remembered as one of the best Year Groups in Cambridge English School.

You all have amazing and diverse talent and I have been so impressed with the enthusiasm that you have shown in embracing any new opportunity that comes your way. Your amazing results have proved your love of education. Ever to excel!

I am looking forward to congratulating you in August for what I am sure will be results that show well deserved success and to welcoming many of you back to our sixth form in September! I wish you all well and hope that you take away cherished memories of your time here in Cambridge English School as I will of you.

Good Luck

A MESSAGE FROM THE FORM TUTORS

**Huw Davies – 11T**

I joined CES in 2016 and was given 9T as a form class. They were a very interesting bunch with a fair few “characters”. It took a while for me to get to know them, having to figure out which Mohammed was which and who was the naughty Omar (you know which one); it was very interesting first few months. But eventually we all got used to each other and it has been an absolute pleasure to see just how far you all have come. Being on this journey along with all of you and seeing how you’ve all matured and grown into yourself has been a wonderful experience for me. Some of the class have moved on and some others have joined us, but we are still that same class that first came together 3 years ago (wow, where does the time go). Academically you have all been outstanding but the things I will take with me are all the non- academic events and functions that you all organised and ran so well: winter wonderland, national day, international day, pink day, world book day the list goes on. The amount of attention to detail and care that you put into everything you did was truly outstanding and a pleasure to see and be associated with. I was truly honored and privileged to have been put with you. Each and every one of you will stay with me forever. I wish you all the best and cannot emphasise enough just how much I hope every single one of you achieves everything that you want in life.

What a privilege it was to be able to teach and meet this group of Year 11 students. Go and conquer the world!

Mevesh Hussein – 11E

A MESSAGE FROM THE TEACHERS

Ian Stuart -Biology

I had the privilege to teach Biology to Yr11 students this year and found them to be interested in the subjects. Some students were so engaged with either individual lessons or with other related biology subjects that they often asked to speak to me after the lesson or during break to find out more. They were particularly interested in scientific reports on the news and things that their family told them about e.g. if their parents, brothers, sisters uncles or aunts were doctors or in the health service.

I wish them all the best in their coming IGCSEs and in their careers after that.

Brett Cain - Chemistry

I was fortunate enough to teach most of the Year 11 Class of 2019 for chemistry during their first year of IGCSE. You were an amazing group of students who worked so well together and pushed each other on to incredible heights. It was my first year at CES Hawally and you left me with memories I will never forget as you were my favourite group of students ever. Thank you for the memories and I wish you all the very best as you move on to ever greater achievements in your life after CES.

Jesus Torres-Chemistry

Year 11s last year set the bar high with their record performance in chemistry! You have made history at CES and I hope you continue this high level of excellence in chemistry at university!

Imtiaz Bemat – Chemistry

To my dear students whom I have enjoyed teaching. May you achieve your goals in life and never give up your dreams.

A MESSAGE FROM THE TEACHERS

Chady Harb - Physical Education

I have been teaching most of the year 11 students for many years and I have known some of them since year 1. It's amazing to see how the students are growing , learning and improving in all area of physical activities. I'm very proud to see them participating in competitions like Football, Volleyball, Basketball and Badminton. Sports day for them was very competitive and challenging. I'm very happy and proud that I had the chance to teach the year 11 this year. Good luck for the future and stay FIT.

Olha Malkina - Physical Education

I was teaching girls from 2017. During that 2 years they made significant improvement (specially in volleyball). All of them are such lovely girls, very polite, organised and attentive. They are very friendly, kind and reciprocal. I was pleased to teach them. This is my favorite group. I'll miss them. I wish them good luck.

Ms Tahira -Mathematics

I have fond memories of teaching Maths in Year 10 to some of the graduating students. As a Year group, you worked so hard and achieved excellent grades in your IGCSEs. A special shout out to my class: Anas, Bader, Ali, Hossam, Khaled , Michael, Belal, Rafaiel, Alaa, Hala, Elio, Mario, Thalia and Hassan. You are an amazing group of kids and great things are waiting for you all. Wishing the class of 2019 all the best in the future; I pray for your success and that all your dreams come true.

Ms Cherine - Biology

To my dearest Year Elevens,

I have known you for many years, some of whom I had the pleasure of teaching in both KS3 &4. You are such a delightful group of students. Very loving and caring to one another, and to your teachers. You always managed to draw a smile on my face; thank you. You are missed already! I wish you all the best in your futures. May Allah's blessings be always with you.

A MESSAGE FROM THE TEACHERS

Huw Davies - Geography

Where do I start with the Geography IGCSE class of 2018-2019, from broomsticks to igloos we discussed it all. At the start of the year I was apprehensive as to how they would perform given that they hadn't taken Geography for a year, within a few weeks all my fears were allayed. What a class!! Each and every one utterly brilliant who can achieve anything and everything that they put their minds too, and they should be aiming high. In my many years of teaching I have seldom come across a class where every lesson was an absolute joy. It was a pleasure to be in the company of such articulate, opinionated, hardworking and well-rounded individuals who I fully expect to do exceptionally well in their final exams.

Whatever these students choose to do next, I'm sure they will achieve all their hearts desires. I wish them every success in any future endeavors and they will always have a little piece of my heart.

Tarisai Nyahwa – Physics

Carl Sagan said , “Somewhere , something incredible is waiting to be known.” I enjoyed teaching you so much so go out there and shine and always remember energy is neither created nor destroyed, it just changes shape.

Hamid Siddique – Mathematics

A very humble and talented year group with which I've had the honour to assist in their development as young professionals. I believe many of them will excel in their desired career choices. I will look forward to hearing about the success they will achieve as they mature into young men and women.

Gerry Blake – English

I was delighted to teach the current Year 11's last year for English. They proved to be a highly capable class, evident long before their results appeared. Theirs was an impressive work ethic and they rose to every challenge set. I wish them all the best in their future academic and professional endeavours and believe they will achieve all the success they are capable of.

A MESSAGE FROM THE TEACHERS

Mohamed Saggaf – Mathematics/ Head of faculty

Changing the face can change nothing, but facing the change can change everything. Remember, the universe is driven by a combination of simple and complex mathematical principles and so does your life. You have proven yourselves to be very skilled individuals who have the capacity to do great things in life. Continue to make us proud as you face new challenges and adventures. May Allah The Almighty bless you all with success!

Asma Arif – ICT

Teaching Year 11 option A was a challenge in itself. I had the most active group of students who always kept me on my feet during the lesson.

As a group they always helped each other to understand the topics. Thanks to all of those who answered on my behalf to Omar Awni's additional questions. A group that was active and smart but at the same time honest and humble. I will miss Omar Hassan saying 'have a great day miss' at the end of every ICT lesson. You are a class that I can never forget. I wish you all the very best in your future studies. May you all shine like stars!

Ms Deepa – Learning Support / Examinations Officer

It has been a pleasure working with this year group in different capacities. A few of you, I have worked with from Year 7 to Year 9 in learning support as well as teaching you English and Maths. I am so pleased that these students are now taking IGCSEs and aspiring for higher education – well done. I am very proud of you.

I had a wonderful 2015 – 2016 as form tutor for 8T (majority now in 11T) and I hope I had a little influence in the development of your conscience and how you interact with others and the development in your confidence and self belief.

As a year group, you have been excellent during exams from year 10 and now in year 11 and I wish you success and happiness in the future.

STUDENT PROFILES

19/02/2019

Abdulahdi Hamad Alsayegh
